

```
pascal_tdma::pascal  
_tdma_single_solve_cycle
```

```
graph LR; A[solve_theta::solve_theta_plan_single] --> B[pascal_tdma::pascal_tdma_single_solve_cycle];
```

A diagram showing a function call. A blue arrow points from the function `solve_theta::solve_theta_plan_single` in a white box on the right to the function `pascal_tdma::pascal_tdma_single_solve_cycle` in a gray box on the left.

```
solve_theta::solve  
_theta_plan_single
```
