

module_stdma::module
_stdma_plan_many_solve

```
graph LR; A["module_stdma::module  
_stdma_plan_many_solve"] --> B["tdma_many"]
```

The diagram consists of two rectangular boxes connected by a horizontal arrow. The left box is white with a black border and contains the text 'module_stdma::module' on the first line and '_stdma_plan_many_solve' on the second line. A blue arrow points from the right side of this box to the left side of the right box. The right box is gray with a black border and contains the text 'tdma_many'.
